

Changing Symbols & Display (Custom Map Builder only)

**Hint: For best results, create an account [Quick Start Guide](#), to save your settings to your customized map.*

1. Go to ArcGIS.com.
2. In the search bar, type "polk county nc" to find relevant data layers.
3. If you did NOT sign & do not wish to save your changes for a later time, click "Modify Map."
4. Otherwise, click the Content tab  Content
5. To makes features more **transparent**, click on the drop-down next to the layer you wish to modify transparency for. Choose "Transparency."
6. Drag the slider to the left (or towards 0%) to make features more see-through.
7. Drag the slider to the right to make features more solid and less transparent.
8. To change the look and feel of how features are drawn, click on the drop-down next to the layer you wish to **modify symbols** for. Choose "Change Symbols."

Change Symbols

Specify what symbols to use to draw the layer. [Help](#)
