

Navigating the Map

All Applications: Use the mouse to pan around the map. Zoom in or out using the scroll button on the mouse or use a touch screen. Use the shift key in conjunction with the mouse to zoom in to a defined area.

- Use the magnifying glass to search. Click an item from the results. See below for more details.

Custom Map Builder

Name, Street Name, or Address

**Note: Click the drop-down on the right-hand side to choose which layer to search on. ESRI World Geocoder will return structure addresses.*

Basic Search

Name, Parcelno, Address, Neighborhood

- Use the Home button to get back to the starting extent. 
- Use your GPS-Enabled Device to find your location on the map.
